EXPERIENCE

Software Development Engineer I

Dream11 (Dream Sports AI)

📅 October 2024 – Present

📍 Mumbai, India

- **Creator's Economy** core backend engineer (IPL 2025 launch): designed LLDs and built **APIs, GraphQL services, Kafka producers/consumers, Spark jobs**, and cron jobs across marketplace, payments, and user-facing systems — including the **Marketplace service** (team broadcasts & subscriptions) at **48.5M RPM**; the platform hit a **world-record 16.1M concurrency**, **260M+ users**, and **Rs. 2000 Cr (~\$240M) revenue (18% of org revenue)**.
- **Service owner** of the **Social-Leaderboard** service that lets users filter and track their rank within their social network in real time during matches, sustaining **33M RPM**; shipped backend optimizations projected to save **~\$100K/year**.
- Built multiple **Kafka consumer applications** for real-time cross-system sync (**Aerospike, MySQL, DynamoDB**, microservices), including a **two-way sync** that kept team selections consistent across **new and legacy app versions**; owned **database operations** (MySQL, Aerospike, Kafka) with **cost-optimized scaling** and monitoring.
- Led **load testing** across services, identifying and resolving bottlenecks to sustain **up to 60M RPM** with **0% downtime** at peak IPL traffic; built **automated functional test suites** validating correctness across **API contracts**.
- On the **DreamPlay** team: built **PredictLLM** (LLM-based sports-prediction engine for Rushline), delivered the **in-app purchase** system end-to-end (Apple App Store + Google Play Billing), engineered real-time **live match commentary**, and built a **Vision-Language Model (VLM)** platform using **RF-DETR, BoT-SORT**, and **Google Gemini** for multimodal video understanding.
- Cut video **Total-Arrival-Time** from **4 hours to 15 minutes (16x faster)** via **real-time video ingestion** and on-the-fly **HLS** (HTTP Live Streaming) output.

Software Development Engineer I

Solutionec Pvt. Ltd. (C.H.C Sinergi 2.0+)

📅 June 2024 – October 2024

📍 Bangalore, India

- Designed cost-effective **data-ingestion pipelines** and revamped legacy **ETL** processes; partnered with business stakeholders on workload forecasting and technology roadmaps.
- Built **automated ingestion** for compliant international consumer-health data with rigorous quality control and audits, improving data accuracy, accessibility, and stakeholder satisfaction.

Software Development Intern

Solutionec Pvt. Ltd. (Query Builder)

📅 May 2023 – August 2023

📍 Bangalore, India

- Built a web app for Business Analysts with **dynamic SQL queries** (**Flask, SQLAlchemy**), a from-scratch backend using **ConnectorX**, and **Snowflake** integration; optimized performance by **12x** and earned a **Spot Award** from the **COO** plus a **Pre-Placement Offer**.

EDUCATION

Integrated M.Sc. in Physics

Indian Institute of Technology (IIT) Kharagpur

📅 2019 – 2024

📍 CGPA: 8.54 / 10

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript, Go (Golang), Bash

Backend & Web: Node.js, Vert.x, RxJava, GraphQL, REST APIs, Microservices, React

Data & Infrastructure: Apache Kafka, Apache Spark, PostgreSQL, MongoDB, DynamoDB, Aerospike, Snowflake, Big Data, Docker, AWS, GCP

AI / ML: Machine Learning, Deep Learning, LLMs, Vision-Language Models (VLM), Computer Vision

CS Fundamentals: Data Structures & Algorithms, System Design, DBMS, OOP, Competitive Programming

ACHIEVEMENTS

- **Competitive Programming:** ranked **1012 / 70,000+** in CodeChef SnackDown 2021 (reached Pre-Elimination Round); ranked **402 / 10,000+** in CodeChef January Long 2022 (Division 3).
- Solved **800+ Data Structures & Algorithms problems** across Codeforces, LeetCode, and AtCoder.
- **Selected for Summer Research in Quantum Computing** at Universitat Politècnica de Catalunya (**UPC-BarcelonaTech**), 2022.
